

August 2010

Swiss precision on American soil!

The Berlinger group is now operating its own company in America and conducting business in US Dollars!

On July 1st, 2010, the Berlinger group established Berlinger USA LLC. This is a wholly owned subsidiary in the US. With this important step we are closer to our fast growing North American customers and we can react quickly to inquiries and provide customer support. Berlinger manufactures Swiss quality engineered products to manage your temperature & time exceptions such as Q-tag®, Freeze-tag® and Fridge-tag®. Should your customers KNOW immediately if your products are within temperature criteria?

Please do not hesitate to contact our new site for any questions or information. Plan on visiting us at our booth and receive a complimentary piece of Swiss chocolate at the IQPC Cold Chain Conference in Philadelphia on September 22 & 23.

Contact details: Berlinger USA LLC
210 Millcreek Road.
